

PURPOSE

To carry out a design project in one of the specializations of the program with substantial multidisciplinary component.

OBJECTIVES

1. The students shall work on a topic as a forerunner to the full-fledged project work to be taken subsequently in VIII semester.
2. The students shall carry out a project in any one of the specializations of program under study with substantial multidisciplinary component
3. **The Minor project has to be done SINGLY and no batch system is being enforced.**
4. Students should contact the Faculty Guides assigned (verify timetable).
5. Assessment will be strictly based on internal reviews.
6. Based on the reviews marks will be allotted out of 100.

EVALUATION

Minor Project Evaluation (Marks)			
Review 1	Final Review	Report Submission	Project Submission
10	20	30	40

EVALUATION CRITERIA

Review 1 (13th – 17th Feb)	Comprehensive Explanation about Project (motivation, objective, Design and expected outcome) Design Complexity Originality Plan of Action
Final Review (1st – 12th May)	Project Demonstration
Report Submission (Final Review)	Acknowledgements Abstract Introduction Tool Description Modularity of Analysis and Design Conclusion/Future Work Appendix (Coding and Screenshots) References
Project Submission (Final Review)	Completed Project Submission as a soft copy
